BENDI-BUFF FOAM BUFFING PADS

WIZARDS INTRODUCES NEW EASY-TO-USE BUFFING PADS

Wizards Products launched a line of new, super easy-to-use foam buffing pads. The convoluted design of the Bendi-Buff™ Foam Buffing Pads gives the user greater control, eliminates pad chatter, reduces product splatter and waste, and reduces surface heat. The pads offer a Velcro® grip back with an alignment ring, helping make pad changes in seconds with the Wizards® 6-inch Bendi-Backer™ Backing Plate (Part #1121). Bendi-Buff™ Foam Buffing Pads are available in

a 7.5-inches for cutting, light cutting/polishing, finishing, and ultra finishing.

Also, Wizards® new Aggressor™ Foam Compounding Pad offers the fast cutting action of a wool pad in a convoluted foam design. Its super aggressive foam material offers the fastest cut available from a foam pad on the market. It's the foam pad of choice for initial cutting. This 8-inch, Velcro®-backed pad is compatible with Wizards® 7-inch Bendi-Backer™ Backing Plate.

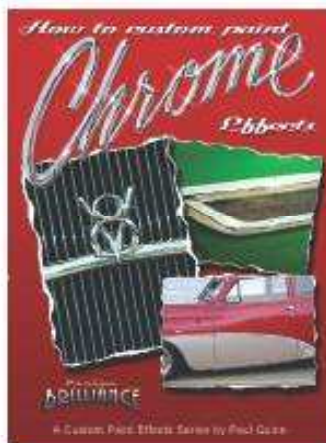

The Bendi-Buff™ and Aggressor™ Foam Buffing Pads are the newest addition to the WIZARDS® System of finishing products, including Mystic Cut™ Nano-Sphere Technology Compound, Turbo Cut™ Time Release™ Compound, Finish Cut™ No Swirls Compound, Mystic Polish™ Nano Sphere Technology Machine Glaze, Shine Master™ Polish and Breathable Sealant, Wipe Down™ Inspection Detailer, and the WIZARDS® line of buffing pads.

For more information about Bendi-Buff™ Foam Buffing Pads, The Aggressor™, or any other WIZARDS® products, visit www.WizardsProducts.com.

NEW DVD!

HOW TO CUSTOM PAINT CHROME EFFECTS

BY PAUL QUINN

Paul Quinn, nationally known airbrush artist, pinstripe master, and instructor announced the release of *How to Custom Paint Chrome Effects*, his new instructional DVD. Quinn walks you through the process of painting a dimensional faux chrome molding and its practical application on a vehicle. You'll learn the products, tools, and techniques needed to create this stunning effect. \$39.95, plus shipping and handling. Length: 50 minutes. For more info, or to order, visit www.designbrilliance.net.

BLAST-A-WAY CABINET

Dark Industries, of Gibsonia, Pennsylvania, recently introduced the Blast-A-Way Cabinet collapsible spray/blast booth. Designed for serious artists or hobbyists, Blast-A-Way is excellent for spraying on small parts such as motorcycle tanks, helmets, T-shirts, ceramics, glass etching, and many other applications. Lightweight and portable, these booths can be assembled in minutes and boast a generous 36- by 24- by 24-inch work area. Then, Blast-A-Way easily collapses to a convenient 60- by 24- by 3-inch stow-away size. It keeps all the mess inside its bright white plastic liner that wipes clean after each use, and with the optional custom exhaust manifold, it sends paint fumes safely out a door or window. Any solid (blast type) media can be collected for reuse or disposal by simply placing a bucket under the port in the bottom. The unit includes a couple of replaceable clear plastic lenses for the lighting and viewing portholes, a complimentary pair of safety gloves, and a small blast gun. The liner is replaceable too, but as long as you wipe it down immediately after each use it should last indefinitely. For more information go to www.blastawaycabinets.com.
